# What Does a Camp Involve?

There's no experience quite like one of our camps! Our Camp Activities are the core of our camp programmes and travel with us to every school.

## FLAG CEREMONY

Every school receives a blank flag around two months before their camp. The children decorate their flag ready to raise high above their camp during the opening ceremony.

## MAKING CAMP!

The most important task of the camp is putting up the tents! Our tents are huge and it takes real teamwork and cooperation for the children to build their temporary homes.

## KIN BALL

The evening is time to burn off some energy! Every school battles with the mighty Kin Ball in our giant run-around games!

## CAMPFIRE

A critical element on any camp is the campfire! Marshmallows roasted on our Mega-Marshmallow-Maker, the loudest songs we can sing, and, finally, interactive stories by flickering firelight before bed!

# Daytime Group Activities

Your school will create their own bespoke camp programme. All of our activities are delivered by our highly trained and experienced staff. Our most popular activities are:

## **BUG-BUNS AND BLAZES!**

Learn to make a fire with a sparking fire-steel, bake over an open fire, and take on the bush-tucker challenge!

## **WATER PURIFICATION**

Build a purifying filter able to turn very muddy water into very tasty hot-chocolate!

## **CRASH AND CARRY**

Learn age appropriate first aid skills and work in teams to build temporary den-shelters.

## **PENDANTS & PUMP DRILLS**

Using Bronze Age drilling techniques to make a personalised stone pendant to keep.

## **LIFE SKILLS**

Work together to complete tasks designed to develop life skills, teamwork, communication, planning and initiative.

# Other Activity Options?

## TRADITIONAL FIRE LIGHTING!

Work together to make smoke the old fashioned way using a friction-drill, a traditional flint-and-steel, the sun, and even our giant 15 person strap-drill!

## SURVIVAL BRACELETS

Weave a versatile and colourful Survival Bracelet to keep. As worn by Bear Grylls!

## BUSH BAKING

Learn to bake Bannock Bread over an open fire. For students who've already done Bug Buns and Blazes!

## NATURAL NAVIGATION

Use ancient techniques for navigating in the wilderness using the sun, moon and stars, and learn how to build a magnetic compass.

## LAND ART

Use clay and found materials such as plants, stones, and even litter, to make amazing individual and group art.

# WHAT DO THE OUTDOORS PEOPLE BRING?

**PRETTY MUCH EVERYTHING!**

We don't bring sleeping bags but do bring all the rest of the equipment needed for the camp, including sleeping mats.

Your school can buy sleeping bags through us at trade price.

We've provided a printable information sheet and kit list to your school, but you can also find all the information on our website.

This is Britain, so please remember both the waterproofs and the sun-cream!
